Rapid Pipe 3D for MicroStation 95/SE, MicroStation J, and PowerDraft is a Low Cost High Production Tool for creating 3D Pipe Models. Created by people that know how the real world works. No more Auto-This and Auto-That, just pick a Rating/Size and start routing Pipe. This package was developed not only for large projects but also to bring small projects into the 3D World. Perfect for retrofit projects. No more drawing plans and sections. Use Rapid Pipe 3D and increase your productivity and accuracy. Give control back to your Pipe Designers. Rapid Pipe 3D uses Standard MicroStation Workspace tools and Standard MicroStation elements.

Rapid Pipe 3d can be custom built to your companies standards before its shipped at no extra charge (*working units, symbology) or you can use the default standards provided. Start using Rapid Pipe 3D and discover how easy it is to design pipe in the 3D world!!

- No Database Files to Hassle with.
- Set Size/Rating and Start Routing Pipe.
- Standard MicroStation Elements.
- Includes Buttweld and Socketweld Fittings (Standard)
- Custom Built Just for you.
- Working Units and symbology (Standard).
- Special Components can be Added (Extra).

Features:

- Tag Data ([screen shot 75k](#))
- [Frames and Tool Boxes](#)
- [Size / Rating Selector](#)

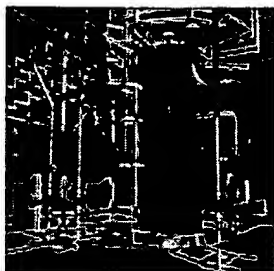

* Working unit can only be modified if unit are an even multiple of Rapid Pipe 3D's standard units.
